CONTENTS OF VOLUME 15

No. 1, January 1988

Involvement of serotonin in the enhancement of the rat spinal excitability by high pressure
J. M. David, J. J. Risso and *J. Pellet* 1

Release of dopamine from striatal synaptosomes: high pressure effects
S. C. Gilman, J. S. Colton, and *A. J. Dutka* 13

Ventilatory failure in cats during prolonged exposure to very high pressure
H. Burnet and *N. Naraki* 19

Treatment of decompression sickness with a perfluorocarbon emulsion (FC-43)
B. D. Spiess, R. J. McCarthy, K. J. Tuman, A. W. Woronowicz, K. A. Tool, and *A. D. Ivankovich* 31

U.S. Navy saturation diving and diver neuropsychologic status
M. D. Curley 39

Technical Communication

Transcutaneous measurement of P_{CO_2} at high ambient pressure (41 bar)
K. Furset, L. Aanderud, K. Segadal, and *I. Tyssebotn* 51

Book Review 63

Letters to the Editor 65

Abstracts From Current Literature 67

No. 2, March 1988

Pressure suppresses serontonin release by guinea pig striatal synaptosomes
S. C. Gilman, J. S. Colton, S. C. Hsu, and *A. J. Dutka* 69

High ambient pressure of 41 bar increases the cerebral toxicity of penicillins
K. Furset and *B. Engelsen* 79

Effects of transcutaneous scopolamine and depth on diver performance
T. H. Williams, A. R. Wilkinson, F. M. Davis, and *C. M. A. Frampton* 89

Air embolism may cause unrecognized ischemia of the gray-white junction
A. J. Dutka, P. Kochanek, J. M. Hallenbeck, and *J. R. Storey* 99

Blood factors and venous gas emboli: surface to 429 mmHg (8.3 psi)
J. T. Webb, K. W. Smead, J. R. Jauchem, and *P. T. Barnicott* 107

Role of body fat in the prediction of the metabolic response for immersion in cold water
P. Tikuisis, R. R. Gonzalez, R. A. Oster, and *K. B. Pandolf* 123

Nutritional status of land-based U.S. Navy divers
A. Singh, P. A. Deuster, B. A. Day, D. J. Smith, J. E. DeBolt, and *T. J. Doubt* 135

Book Reviews 147

Abstracts From Current Literature 151

No. 3, May 1988

Effect of wearing gloves on the thermal balance of Korean women wet-suit divers in cold water
J. K. Choi, Y. S. Park, Y. H. Park, J. S. Kim, D. S. Yeon, D. H. Kang, D. W. Rennie, and *S. K. Hong* 155

Respiratory and cardiovascular responses to cold stress following repeated cold water immersion
S. R. Muza, A. J. Young, M. N. Sawka, J. E. Bogart, and *K. B. Pandolf* 165

Bronchomotor response to cold air or helium-oxygen at normal and high ambient pressures
Y. Jammes, H. Burnet, P. Cosson, and *M. Lucciano* 179

Ventilatory response to transient hypoxia in O_2 divers
Y. Melamed and *D. Kerem* 193

Vascular pressures and passage of gas emboli through the pulmonary circulation
B. D. Butler and *J. Katz* 203

Rat brain catecholamine release at 1, 10, 20, and 100 ATA heliox, nitrox, and trimix
M. McLeod, P. B. Bennett, and *R. L. Cooper* 211

Clinical Communication

Neuropsychologic assessment of cerebral decompression sickness and gas embolism
M. D. Curley, H. J. C. Schwartz, and *K. M. Zwingelberg* 223

Book Reviews 237

No. 4, July 1988

Editorial 239

HPNS effects among 18 divers during compression to 360 msw on heliox
R. J. Værnes, T. Bergan, and *M. Warncke* 241

Effects of a H_2-He-O_2 mixture on the HPNS up to 450 msw
J. C. Rostain, M. C. Gardette-Chauffour, C. Lemaire, and *R. Naquet* 257

Alternobaric vertigo in professional divers
O. I. Molvær and *G. Albrektsen* 271

Air vs. He-O_2 recompression treatment of decompression sickness in guinea pigs
R. S. Lillo, M. E. MacCallum, and *R. B. Pitkin* 283

Use of the maximum likelihood method in the analysis of chamber air dives
P. Tikuisis, R. Y. Nishi, and *P. K. Weathersby* 301

Clinical Communication

Heliox treatment for spinal decompression sickness following air dives
J. D. M. Douglas and *C. Robinson* 315

Letter to the Editor 321

Abstracts from Current Literature 323

No. 5, September 1988

Effect of benzazole-related centrally acting muscle relaxants on HPNS
F. Bowser-Riley, S. Daniels, and *E. B. Smith* 331

Central nervous system oxygen toxicity in the resting rat: postponement by intermittent oxygen exposure
B. Bleiberg and *D. Kerem* 337

Effects of high pressure and vanadium on cell growth
J. Jenssen and *T. Syversen* 353
Breath-hold duration in man and the diving response induced by face immersion
J. A. Sterba and *C. E. G. Lundgren* 361

Clinical Communications
Manifestations and treatment of 793 cases of decompression sickness in a compressed air tunneling project in Hong Kong
T. H. Lam and *K. P. Yau* 377
Dysbaric osteonecrosis and its radiographic classification in China
H.-l. Xue 389

Book Reviews 397

Abstracts From Current Literature 401

No. 6, November 1988
Central nervous system decompression sickness: latency of 1070 human cases
T. J. R. Francis, R. R. Pearson, A. G. Robertson, M. Hodgson, A. J. Dutka, and *E. T. Flynn* 403
Experimental determination of latency, severity, and outcome in CNS decompression sickness
T. J. R. Francis, A. J. Dutka, and *E. T. Flynn* 419
Magnetic field effects on dental amalgam in divers welding and cutting electrically underwater
T. W. Örtendahl and *P. Högstedt* 429
Effects of magnetic fields from underwater electrical cutting on in vitro corrosion of dental amalgam
T. W. Örtendahl, P. Högstedt, H. Odelius, and *J. G. Norén* 443
Effect of 5 bar oxygen on cardiac output and organ blood flow in conscious rats
G. W. Bergø, J. Risberg, and *I. Tyssebotn* 457
